

**Product Name:** PPF Refresh

**Description:** AUTOTRIZ PPF Refresh is formulated with a blend of micro-abrasives and polishing agents that are designed to gently remove light scratches, swirl marks, and other surface defects without damaging or removing the PPF. The compound is safe for use on all types of PPF and will not leave behind any residue or build-up. It is also easy to use, with a simple application process that can be done by hand or with a machine polisher. With PPF Refresh, you can restore the clarity and shine of your PPF, ensuring that it continues to provide optimal protection for your vehicle. It is a must-have product for anyone who wants to keep their PPF looking its best for years to come.
